Minister Municipal Affairs Addresses Board of Trade

On account of the busy season, the attendance at the Board of Trade luncheon on Monday evening, was not large, but those present enjoyed an excellent address given by Hon. R. G. Reid, Provincial Treasurer, Minister of Municipal Affairs for the Province. The minister compared the conditions as he found them about thirty years ago with today, and quoted figures in which it was shown that Alberta had three times the population in 1926 that it had in 1896, while the agriculture production had increased twenty times during that period. The minister humorously referred to a trip he and other homesteaders had made, driving from Edmonton to near Mannville, stating that there was only one mudhole in the one hundred and forty-five miles travel, and that hole was the entire distance from Edmonton to Mannville, and it took fourteen days to make the journey. On this long trip, no educational institutions were to be seen, only one church, while today the trip could be made in four hours by car on good roads, passing through eleven towns, all of which have several elevators as well as public and high schools. This rapid development took place in thirty years, as a result of agriculture, and no place in the world could equal the rapid development which Alberta has enjoyed. Greater development may now be expected with the natural resources. The development of the natural resources will come slowly and those in control will have to work out a satisfactory plan of action and will keep away from exploitation. They will doubtless be developed so that the old timers as well as our children will reap the benefit. But the minister wanted to stress the importance of agriculture as this is the resource on which all stable progress is founded. The mineral wealth comes from the soil, which can be maintained for all time to come. The minister briefly referred to the Pre-Cambrian shield which comes from Eastern Canada and cuts off one corner of the eastern part of Alberta. In this Pre-Cambrian shield in agriculture land and the temperature will permit of grain growing farther north in Alberta than in any other Province in the Dominion. In northern Alberta there are longer hours of daylight, and the sun out during the time of maturing crops.

In agriculture alone there are enormous possibilities, and much larger populations can be supported on the farms. A feeling of pessimism prevails at the present time, but we should look to the future with a greater degree of optimism than we have during the past six months. The Board of Trade is doing good work in the Wetaskiwin district, and if the same idea was carried out in other parts of the province, it would do much towards furthering the betterment of Alberta.

It was decided to affiliate with the Canadian Chamber of Commerce, which is a national body. The matter of taking an advertisement in a publication being prepared by the Northern Alberta Game and Fish Protective League, was referred to the council for action.

A brief discussion also took place about the observance of Empire Shopping Week and this will likely be observed by the leading Wetaskiwin merchants.

The meeting was presided over by W. Prest, the president, and Miss Marjorie Robinson was the pianist.

RUIN RESULTS FROM U.S. TORNADO

Chicago, May 3.—Storm shattered sections of nine central states today to the task of reconstruction as volunteer workers cleared away debris left by the season's first onslaught of destructive, life-taking tornadoes and violent storms.

Scores of families, after a night in temporary tent shelters, provided by relief organizations, began the disheartening work of rebuilding their ruined homes.

Red Cross and National Guard units engaged in relieving the suffering of the many injured and the hundreds made homeless in the series of cyclonic disturbances, reported a storm toll of 23 deaths and damage approximating \$5,000,000.

HOBBEMA SCHOOL HIT BY LIGHTNING

On Wednesday of last week, a storm passed over the town, and a bolt of lightning hit one of the large chimneys of the Indian Mission school. The chimney was demolished and some of the shingles were knocked off the roof, but fortunately the building did not catch fire. The damage is estimated at about \$150.00. It is a strange coincidence that this was the only flash of lightning from the storm.

Town Topics

A meeting of the W.A. will be held at the home of Mrs. Cole on Tuesday, May 13th, at 4 p.m.

The Norwegian Lutheran Ladies' Aid will meet at the home of Mrs. E. B. Ness on Friday, May 9th, at 3 p.m.

Mrs. Alex. Cummings intends to leave shortly for the coast, where she will spend several weeks with friends.

Dr. and Mrs. Shillabeer expect to leave shortly on a trip to the continent, where they will spend several weeks holidaying.

The many friends of Miss Vold are glad to know she has resumed her position in Lowry's store, after her recent serious operation.

Corporal Collett wishes to remind the people of this community that it is unlawful to kindle fires without first obtaining a permit to do so.

The Oddfellows and Rebekahs of Wetaskiwin and community will celebrate the 11th anniversary by attending the 11th annual Divinity in the United Church on Sunday, May 18th.

E. C. Janes arrived in the district a few days ago to superintend the work on his farms in this district. He says conditions in the United States are very quiet at the present time.

The Right Rev. H. A. Gray, Bishop of the Diocese of Edmonton, will be a guest at the Vicarage this weekend; he will conduct the special services at Immanuel Church on Sunday next.

The next regular sittings of the Wetaskiwin district court will be held in the Court House here, commencing on Wednesday next week. We understand there are several cases on the docket.

Dr. Gunderson, who has been receiving medical attention in Edmonton, was removed to his home in Wetaskiwin a few days ago. The doctor's many friends regret to hear that it will be some time before he is able to resume his practice.

A large number of Wetaskiwinites went to Edmonton on Monday evening last to see the second Trunk-Grads game. The Grads redeemed themselves, winning the series by a score of 64-47. They were defeated in the first game by a score of 34-24.

Ald. A. H. Ellis was in Edmonton this week, attending a reunion of Ottawa old boys. Mr. Ellis reports that a most enjoyable time was spent, and the gathering decided to organize an Old Boys' Association, with the intention of having an annual reunion.

If the person who sent us the verses entitled "The Lips that touch liquor," will give us the name of the author, we will consider their publication. It is the rule of this office that we cannot publish communications and articles of this nature without knowing who contributed them.

The Oddfellows of Wetaskiwin and community went to Millet on Sunday afternoon last, where they joined their Brothers of Millet Lodge in celebrating the anniversary of the founding of the Order. The members of Crescent Rebekah Lodge and some of the Brothers went to Ponoka to take part in the celebration there.

Mr. V. C. Thompson was called to Calgary Saturday, owing to the serious illness of his brother, who passed away Sunday morning. Mrs. Thompson left on Wednesday afternoon, to attend the funeral. The late Mr. Thompson was a very popular citizen in Calgary, and his many friends regret to hear of his demise.

In reading the note referring to the address which was presented to The Excellencies, Viscount and Viscountess Willingdon last week, the reader might infer that the wording of the address was prepared by Prof. Adam. This is not the case. The address was prepared by J. E. Fraser, the secretary-treasurer of Wetaskiwin, and was submitted to their Excellencies for approval before it was designed by Professor Adam. It is gratifying to know that Wetaskiwin has a man who can prepare such a satisfactory address.

WETASKIWIN OLD TIMER PASSES AWAY IN B.C.

Camrose, May 7.—News of the death of Duncan Sampson on Monday in New Westminster, B.C., was received through a wide territory in the Camrose district with more than ordinary interest and regret, since he was the first to acquire a lot when the Camrose townsite was first surveyed and offered for sale. Deceased was also the first to open up a business of any kind when the place was merely designated as the townsite of Sparling. Duncan Sampson was born near Collingwood, Ont., about 64 years ago, and in 1904, with his wife and family, he arrived in Wetaskiwin.

WETASKIWIN PLAYERS MAKE HIT AT LEDUC

The Wetaskiwin Players presented "The Cat and the Canary" in the Leduc opera house last Friday evening, and the theatre was crowded to the doors. Though working under the disadvantage of inadequate stage facilities, the company were vociferously received, prolonged applause "stopping the show" at times. During the dance which followed the performance, the individual members of the cast were showered with compliments from all quarters, and there was a general demand for a return engagement. The Moonbeam orchestra furnished music and were greatly appreciated.

BELIEVED TO HAVE FOUND CANCER CURE

Bloomsburg, Pa., April 30.—A cure for cancer that had proved efficacious in four out of five cases, with 64 thus treated, is being withheld at the Hahnemann hospital until it has been proved that the cure will not harm healthy tissues and until arrangements can be made to prevent the medicine from becoming the property of an individual or firm.

When a dosage of the chemical is injected, the patient experiences severe burning in the region of the cancer, which continues until the cancerous tissues have been destroyed. Dr. Butts said there was not yet a positive certainty that it would not attack healthy tissues, although in 64 cases treated in the last eight months four out of five have been cured.

HON. GEO. HOADLEY UNANIMOUS CHOICE

Hon. George Hoadley, minister of agriculture and health, will be the United Farmers of Alberta standard bearer in the provincial general election of June 19 next in the recently combined riding of Okotoks-High River. He obtained a unanimous nomination at the constituency convention held at High River on Saturday night.

While the minister was given a unanimous election and emerged from the convention with flying colors, he was kept on tenterhooks until the last possible moment.

DUNNING OUTLINES CHANGES IN BUDGET

Ottawa, Ont., May 2.—Canada proposes to do her bit toward developing trade within the British Empire. Yesterday's budget, the first to be presented by Hon. C. A. Dunning, minister of finance, made that fact abundantly clear.

On hundreds of items in the tariff of Canada, rates under the British preference have been decreased. On many of these same items, general tariff rates have been increased. The changes, however, should have the effect of greatly increasing the British preference in the Canadian market.

The revision constitutes the most drastic fiscal alteration since the session of 1911, it is stated.

The most important budget details are revealed below: Downward revision on the tax brought in last year on the sale and transfer of stock.

Duty of New Zealand butter increased at once from one cent to four cents a pound.

Trade agreement now in operation with New Zealand will be terminated on October 12.

Trade agreement with Newfoundland to provide for the removal of certain commodities, including certain vegetables, eggs and grain.

Under general tariff, 66 items of iron and steel have been reduced and 40 increased. Under intermediate tariff, 36 have been reduced and 24 increased. Under the British preference, 152 have been reduced, eight increased.

Bounty of 49 1/2 cents a ton on Canadian bituminous coal, used in smelting.

Duty removed on British-green tea. Reductions in duty on printing machinery.

Reductions on machinery not made in Canada, with increases when made here.

Exemption from tax in case of co-operative companies and associations. Wider range of exemptions in case of dependents of taxpayers.

Exemptions from tax in case of all donations to churches, schools, hospitals, etc.

Non-resident shareholders in family corporations and directors, officers and employees of Canadian concerns who reside abroad, are made taxable under the act.

Reduction in the rate of the sales tax to one per cent.

Reduction in rates on the sale of transfer of stock shares to the following basis:

On shares valued under \$1, one-tenth of one per cent of value.

On shares valued from \$1 to \$25, one-quarter per cent per share.

On shares valued from \$25 to \$50, two cents per share.

Obituary

MARGARET PHYLLIS SHANTZ The funeral of Margaret Phyllis Shantz, aged one year, seven months and 21 days, daughter of Mr. and Mrs. O. W. Shantz of Rocky Mountain House, was held from Moore's Undertaking Parlor on Thursday, May 1st, Rev. A. L. Elliott officiating.

Beautiful floral tributes were received from Mother and Daddy, Mr. J. G. Weir, Mr. Norman Weir, Mr. and Mrs. J. A. Weir and family, Mr. and Mrs. Otto Mattson, Mr. and Mrs. O. Alberg, Mr. and Mrs. Dave Bahr and family, Wetaskiwin; Mr. and Mrs. A. L. Urch and Maxine, Rocky Mountain House; Mrs. Margaret Shantz and Helen, Mr. and Mrs. W. R. Speirs and family, Mr. and Mrs. E. R. Schwartz, Edmonton.

KARL A. ARNBRUSTER

Karl Adolph Arnbruster, who was taken to the Wetaskiwin hospital a few days ago to be treated for blood poisoning, passed away on Monday last. He was aged sixty-two years, two months and seventeen days. Deceased was born in Germany, and resided here for many years, coming from Denver, Colo., where he had resided for some time. He leaves to mourn his loss, his sorrowing widow and one son, residing in Saskatchewan. The funeral took place on Wednesday afternoon, services being conducted in the First United Church by Rev. A. L. Elliott. The interment took place in the Wetaskiwin cemetery.

JOSEPH MATEJKA

Another of the old-timers of the Wetaskiwin district passed away in the Wetaskiwin hospital on Monday, April 28th, in the person of Joseph Matejka, at the age of 65 years. The deceased was born in Zechari, Czechoslovakia, and came to Wetaskiwin and district in 1901. He leaves to mourn his loss, his wife and a brother, Jim Matejka, of Calgary, and a large number of friends. The funeral was held at the Roman Catholic church, Rev. Father Walravens officiating. The interment took place in the Roman Catholic cemetery. A large number of friends of the deceased were in attendance to pay their last respects. The floral tributes were very beautiful.

HOUSE TO "DISSOLVE" ABOUT MAY 29TH

Edmonton, May 3.—Dissolution of the sixth Alberta legislature will take place about May 29, according to an announcement made by Premier Brownlee this morning. The date of the provincial election has been set for June 12.

Pre-election activities are already in evidence in all parts of the province. In the country districts, however, these activities will be largely confined to the holding of nominating conventions until the completion of spring farming operations, it is believed.

All political parties plan intensive campaigns during the three weeks immediately preceding the polling day.

In the cities, a somewhat different situation prevails and election talk is already beginning. Nominations of candidates for city seats will probably be completed by the end of next week, when the flood of election literature will be released in earnest.

HAS NO FEAR FOR REMOVAL OF WHEAT

Washington, D.C., May 3.—Surplus wheat in Canada will probably be disposed of by the end of July. The wheat carried over will be a very high grade. There are the opinions expressed here by Hon. W. R. Mott, Canada's minister of agriculture.

Speaking of the wheat pool, the minister said: "How can they lose the pool was a tremendous stride forward from the viewpoints of the average contract signer, for he felt through it he would secure the last cent the market would justify and that was all he wanted."

"The wheat growers will stand four-square and solidly behind the pool. Mr. Mott was emphatic.

"And not only will the Western farmers stand behind the wheat pool, the farmers as a whole will extend and adopt the principle of co-operative marketing of surplus products throughout the whole of Canada."

PRAIRES MAGNET FOR FACTORIES

Winnipeg, May 1.—Progress of the manufacturing industry of the prairie provinces during the past year, as testified to by C. E. Harvey of Winnipeg, retiring chairman of the prairie division of the Canadian Manufacturers' association at the annual meeting here last night.

"Mr. Harvey said many new factories came into production on the prairies last year, the value of products produced in 1929 totalled more than \$340,000,000, and all provinces—Manitoba, Saskatchewan and Alberta—shared in the development.

Mrs. Poole Is Re-elected Secretary District W.C.T.U.

POLITICAL PARTIES ORGANIZING FOR PROV. ELECTION

The political party is beginning to slumber in the Wetaskiwin provincial constituency, as Liberal and U.F.A. nominating conventions have been convened, and the Conservative executive has decided to hold a general meeting of Conservatives to consider the matter of placing a candidate in the forthcoming election.

The Liberals will hold their meeting on Wednesday afternoon of next week, May 14th, when in addition to the election of a candidate, the election of officers will take place. J. W. MacDonald, K.C., the newly elected Liberal leader, will be present and will give an address. The only name mentioned by the Liberals as the likely candidate is H. J. Montgomery, and he will likely carry the convention without opposition.

The date set for the U.F.A. convention is Tuesday, May 20th, and it is expected that all parts of the constituency will be represented. It is reported that E. B. Sparks, the sitting member, will endeavor to carry the convention, but if rumor is correct, he will be opposed by two or three other aspirants for the office.

The Conservative executive has convened a meeting of Conservatives of the constituency in the Oddfellows' hall on Friday evening, May 23, when it will be decided whether it will be in the best interests of the party to place a candidate in the field at this time.

BUSH BAGOT TREATY IS EXPLAINED

The meeting of the Wetaskiwin Kiwanis Club on Wednesday evening of last week, was a very interesting one, as a number of Edmonton Kiwanians were present, and Mr. Hugh McDonald gave a very interesting and enlightening talk on the conditions which led up to the signing of the Bush Bagot treaty. Kiwanis Club Cook occupied the chair for part of the meeting, and he called on a number of visitors to give reasons why they left the United States to take up residence in Canada, and some of these reasons were quite amusing.

Music was also a feature of the evening, as Ed McGarvey rendered several solos, and lots of zest was shown in the community singing.

The Wetaskiwin Club has accepted an invitation to hold an Inter-Club meeting with Edmonton on Tuesday evening next to meet and welcome the International President, H. W. McDonald, who is paying an official visit on that date.

FINED FOR BUYING UNGRADED EGGS

At Leduc, on Monday, the 6th inst., Hoffman's Limited, general merchants at Calmar, Alberta, were charged with two offences of buying ungraded eggs from two different farmers, in the month of March last, without candling and grading same, in accordance with the Canadian Standards and without making payment for same on the basis of such grading, with price differentials between the grades, and without giving the farmer in each case a statement in the prescribed form, contrary to the provisions of the regulations made under the Livestock and Livestock Products Act, being Chapter 130 of the Revised Statutes of Canada. The accused pleaded guilty to each charge, before Esten Williams, Police Magistrate, and was fined \$25 and costs in connection with each charge.

W. H. Odell acted for the Dominion Government.

JOHN SCOTT WAS BADLY HURT FRIDAY

John Scott, a City employee, was seriously injured on Friday last, when he was assisting to remove a building near the north wall of the power house. The cause of the accident is not definitely known, but it is supposed that some of the timbers gave way and the building fell, pinning the unfortunate man to the ground. He was in this precarious position for some time, before relief came, when he was taken to the Wetaskiwin hospital for treatment. The injuries are quite painful but are not thought to be serious. He was removed to his home on Wednesday.

LISTEN TO LIBERAL LEADERS IN ALBERTA

All those interested in the political issues of the day are requested to tune in on Monday, Tuesday, Wednesday and Friday nights at 8 p.m., when short addresses will be given by Liberal leaders in the Province, speaking from station CKLQ.

The 18th annual District Convention of Central Alberta W.C.T.U., was held May 1st and 2nd in the Norwegian Lutheran church. Each session opened with devotional exercises.

Lengthy discussions were given, showing the necessity of temperance education. That the Northern Messenger Campaign was very helpful and should not be overlooked, and that the said paper should be read in every home.

It was also strongly urged that seeing is believing; that if a child sees parent or teacher reserve the right to take a glass occasionally, their influence will not be effective, for example must follow precept.

That the L. T. L. supplements home, school and church, by training the child to assume an obligation, committing themselves to an attitude against the evil; and if in some cases the meaning of the pledge might not be seen at the beginning, educate up to it, and introduce it in about a year.

Contests were found to be helpful, for while a child sees facts for an essay, the knowledge also fills in her own mind, and educates the members of the household, as the search is made known to all.

Some methods of educating the people. Demonstrations on contests, etc.; talks, object lessons; distribution of literature; posters, showing what necessities could be bought for a year's drinks of two glasses of beer a day; plays and pageants, parlor meetings; individual education; reading temperance books, if there are none in the public library, buy some and donate them.

Strong pressure should be brought against the disgraceful, lying advertisements of alcoholic drinks and tobacco, continually before the gaze of young and old.

At six o'clock Thursday evening a public banquet was held, followed by worth while table talks, at which Rev. Pike, of the United church, was chairman.

Greetings were brought from the following: Norwegian Lutheran Church, Rev. Falkner; Sunday school, Mr. Stromsund; Bethany Home, Rev. Jovanas; the school, Principal Mackenzie; Wetaskiwin W.C.T.U., Mrs. J. I. Poole. These all said they were on the same ground as the W.C.T.U., teaching the same truths, and wished them every success. The Sunday school stressed the fact that they were their utmost effort to have the children so firmly embrace Jesus, that intemperance could not enter. We can do all things through Christ, who strengthen us. Know ye not that your bodies are the temple of the Holy Ghost and that the Spirit of God dwelleth in you.

Medal recitations—1, Peter; 2, The Two Glasses; 3, The Face on the Floor; 4, The Old Man's Story; 5, Cigarette Boys. No. 3 received the medal.

Mrs. McKinney gave a lengthy address in her motherly, forceful way, in which she reviewed the work of the day, and said that we had a strong sentiment, but not as strong as it ought to be. Are we doing our part to discourage the social glass, or fearing to pledge ourselves, because we would not refuse at a friendly party. Some will not sign, but will surely vote right; yes, because somebody taught them. Are you teaching those who are coming after you or against, for all do teach. In Ontario 1,000 a week are coming to voting age. There is a time limit, there is a time when they will pass out of our hands, and beyond our influence. The speaker said many are afraid to try anything new, that we need an infusion of new blood. Education is the ability to think rightly and to act rightly. May we have God's vision to see and will to do.

The following officers and committees were re-elected: President, Mrs. H. M. Rieber, of Didsbury; vice-president, Mrs. P. L. Backus, Red Deer; corresponding secretary, Mrs. J. I. Poole, of Wetaskiwin; recording secretary, Mrs. T. E. Armstrong, Olds; treasurer, Mrs. M. A. High, of Red Deer; superintendent of Sunday school work, Mrs. F. Gaetz, Red Deer; superintendent of medical contest, Mrs. I. M. Halliburton, Red Deer; superintendent of scientific temperance, Mrs. S. G. Wetterberg, of Banff; and superintendent of essay contest, Mrs. J. Curtis, Olds.

The delegates from Olds invited the convention to that town in 1931.

MAJOR BAKER NOW PONOKA COMMANDER

Ottawa, May 3.—Appointment of Major G. Lat. Baker, to command the North Alberta Regiment at Ponoka, Alta., were officially gazetted yesterday at the Department of National Defence.

Major Baker takes over command of the North Alberta Regiment from Provisional Lieut.-Col. A. Beaumont, who has been transferred to the reserve of officers.

PREMIER'S MESSAGE
OF GOOD CHEER

On several occasions in recent weeks Mr. Brownlee has spoken in the same vein as at Wetaskiwin on Tuesday. These speeches of his have done much to offset the effect of gloomy forebodings that we always hear at a time such as that through which we have been passing. When the premier declares that the economic situation in Alberta is not really bad and that there is no reason for "allowing ourselves to become a prey to fears of failure," he speaks from intimate knowledge of underlying conditions. Being convinced that this is so, he is discharging his plain duty as head of the government in urging the need of displaying courage and confidence.

There is no doubt that, as the audience in Wetaskiwin was told, proper utilization of the natural resources about to be transferred to the province will introduce for it an era of unprecedented prosperity. With the betterment that this and other recent developments have brought about in its position and outlook, it is folly to give way to pessimism because of temporary difficulties. The premier's message is a timely one and as all are aware he is not in the habit of indulging in unwarranted optimism, it will on that account be given the closer heed.—Edmonton Journal.

PRODUCTION COSTS
MUST COME DOWN

Developments in the world wheat situation in the past nine months compel a revision of the long-held opinion that the world cannot get along without Canadian wheat. Other nations are challenging the theory. They are increasing their production, improving the standard, and lowering the cost of production. Canada is faced with the keenest of competition in the world markets. It can only be met by maintaining the high quality of the Canadian product and at the same time reducing the cost of production to the lowest possible point.

Two well-known figures in western agriculture, A. E. Darby, secretary of the Canadian Council of Agriculture, and E. Ward Jones, superintendent of agriculture and animal husbandry of the Canadian Pacific Railway, in recent addresses have reached the same conclusion. Both believe that the great problem facing the farmers of Western Canada is to lower the cost of producing wheat. Mr. Jones points out that Russia increased its wheat production from 46,000,000 bushels in 1922 to 730,000,000 bushels in 1929. France increased its wheat production from 12,000,000 bushels in 1920 to 325,000,000 bushels in 1929. Italy, Germany, Argentina and Australia are pursuing the same course. It is obvious that world consumption is not increasing at the same rate as production, and the inevitable result will be a lower price until a figure is reached which will tend to discourage production in such wholesale proportions.

Producing at the lowest possible cost, according to Mr. Darby, means mechanization to the highest degree that is economically sound. It means as well the reduction of overhead farm cost by more diversified farming and less dependence upon wheat. Russia, with its illimitable farming areas, is going in for the use of the most modern agricultural machinery. It offers the further severe competition of lower wages and a lower standard of living.

The Winnipeg Tribune believes that conditions may be more promising for the Canadian wheat grower when the present situation works itself out to a logical conclusion. It thinks that the normal demand for Canadian wheat will exist when the crop now is harvested. Land that was seeded to wheat last year with a price of prospectively \$1.50 per bush-

el or higher will be returned to other purposes when the price is prospectively little more than a dollar. This applies to the United States and to the Argentina. It applies also to Europe, where not even the extreme tariffs imposed on imported wheat will serve to maintain production against the competition of dollar wheat in the world markets. In fact, it says, even with a price well above a dollar, the trend will be to leave wheat production to the countries that can produce the best quality at the lowest cost, and that is where Canada comes into her own.—Calgary Herald.

WHAT CANADA
HAS DONE

The following are a few things that can be verified by existing historical records:

1. Canada built and sent the first steam boat across the Atlantic.
2. Canada built and demonstrated the first compound steam engine in the history of the world. The effect of this invention was the doom of the sailing ship as a factor in ocean commerce.
3. Canada built and demonstrated the first submarine telegraph in the history of the world.
4. Canada built and demonstrated the first railway sleeping cars.
5. Canada originated the idea of making paper from wood pulp.
6. Canada demonstrated the first practical electric railway in the history of the world.
7. Canada built the world's first electric stove.
8. Canada originated the idea of electric heating.
9. Canada pioneered in the field of electro-chemistry with the discovery of calcium carbide of Tom Wilson of Hamilton.
10. Canada originated the idea of Standard Time, which has since been adopted by every civilized country in the world.
11. Canada originated the idea of the panoramic camera.
12. Canada originated Marquis and other more recent wheats, which have built up the commerce of the west, both in Canada and the United States.
13. Canada first isolated helium in commercial quantities.
14. The idea of the telephone originated in Canada and the first long-distance trials of the instrument were made between Paris and Brantford.
15. Canada gave to the world the idea of the electric radio.
16. Insulin is of too recent date to require more than mention in this list.

Many city dwellers imagine that a home on the land is a drab and dull place in which to spend a lifetime. Nobody ever made a more foolish mistake in their calculations.

THE HOME
ON THE LAND

This editorial is being written on the farm, twenty-five miles from the city lights and the hot water tap. It is being written for the eyes of dirt farmers, their wives and families. It is being written in a sincere and deep love of a home on the land.

A home on the land is a complete enterprise within itself. If properly managed it is the most independent and self-supporting enterprise on the earth. It pays its own way from the shoe strings of the kiddies to the extravagant cigars of the boss himself. It comprises a wider knowledge of business and science than is required by the owner of a magnificent department store.

Breeding, rearing, feeding, developing, marketing livestock is one of the world's greatest industries. And yet its rudiments and its polished perfection are the daily, hourly routine of the practical farmer.

Preparing the land for crops, the selection of seeds, the timely, intelligent performance of the various op-

erations in planting, rearing and harvesting a crop, is one of the most complicated, uplifting and satisfying occupations in which mankind can be engaged. All this is the work of an expert, a scientist, an artist. It calls forth the very best elements of mental and physical stamina and ability.

And with the modern improvements which the miraculous radio and its kindred wonders have brought to the farm home, the home on the land is, or can be, as bright, inspiring and edifying as any other home. Printing has let a radiant light in to the darkest and most remote corners of the farthest homesteading districts. So nobody on the farm need be lonely. Books and radio and good roads have banished loneliness and long distances. We are in immediate touch with the world.

The cheapest crystal radio set in Alberta brought in the voice of the King as he spoke at the naval meeting in London, six thousand miles away. We are in the very heart of the universe, in the modern home on the land. So let us love it and cherish it and teach our children to stick to it.—Bert Huffman in "Market Examiner."

THE TELEPHONE GIRL

The telephone girl sits in her chair And listens to voices from everywhere; She knows all the gossip, she knows all the news. She knows who is happy and who has the blues.

She knows all our sorrows, she knows all our joys. She knows all the girls who are chasing the boys. She knows every time we are out with the boys, And she knows the excuses each fellow employs.

And she knows all our troubles, And she knows all our strife; She knows every man who is mean to his wife.

If the telephone girl should tell half what she knows, It would turn all our friends into bitterest foes; She would sow a small wind that would soon be a gale, Engulf us in trouble and land us in jail.

She could start forth a story which, gaining in force, Would cause half our wives to sue for divorce. She could get our churches mixed up in a fight, And make it last into borrowing night.

In fact, she could keep the whole town in a stew. If she told just one-tenth of the things she knew. Gee! but don't it make your head just whirr! When you think what you owe to your telephone girl?

PUTTING IT OFF

(By Walt Mason)

"I have a chillblain in my neck, I will not work today, by heck, I'll let my labors slide; tomorrow I'll be feeling fine, today I'll rest beneath my vine, forgetting toil," I cried. A voice is at my inner ear: "You're fit to labor like a steer," that gentle voice maintains; "you never were in better form to toil in sunshine and in storm, ignore your trifling pains. You're just so lazy you detest whatever doesn't look like rest, whatever hints of sweat; you're so blamed to do it, you hate to fix a fence or nail a gate, and sloth's your one best bet. Procrastination, you must know," the voice goes on, remote and slow, "is but a piker's vice; the man who waits the morrow's morn to patch his roof or shuck his corn, will never cut much ice. The big man with the classic brow rears up and says, 'I'll do it now,' and does it then and there; he doesn't say, when feeling frayed, 'Today I'll sit down in the shade,' and he's a millionaire. The voice of conscience drones along, persuading me that I am wrong in dodging honest work; but I today am feeling stale, and I will loaf around the jail and by the old stone skirt. The morrow comes; I feel a wreck, I have two fierce pains in my neck where yesterday saw one; I'll have to rest a day or two, I don't feel fit to ply a hoe or bucksaw in the sun. And so it goes from week to week; the more I rest the more I seek a corner for repose; now every joint in me complains, my neck is full of nagreen pains, and aches, and aches. 'You know it,' my laziness, my friend," stern conscience

SALADA
REDUCES PRICE

10^c A LB.
BROWN LABEL NOW 70^c a lb.

ALL OTHER LABELS REDUCED 5c A POUND

TO THE PUBLIC—These prices are effective NOW—Do not pay more!

Owing to the action of the Government in abolishing the duty on British grown teas and a lower market for certain grades of tea we are pleased to give our customers the full benefit of this

saving at once. Unfortunately the market for the finest quality teas has advanced, consequently we are unable to reduce our other grades more than five cents a pound.

TO THE RETAIL GROCERY TRADE

As usual, we will protect you against loss on Salada Tea by rebating you for your stock on hand so that you can make the above prices effective at once. Forms are being mailed to you for this purpose so DO NOT SHIP ANY TEA BACK TO US.

Canadian Farmer

"Weeds are in the soil what diseases are to the body. Both interfere with, and sometimes destroy, the natural functions of life. If weeds are permitted to multiply they quickly ruin crops and impoverish the farmer. Keep them out, but should they get in, act immediately. The longer the delay, the more difficult the cure."

Extract from Saskatchewan
Dept. of Agriculture Bulletin.

EACH YEAR Sow Thistle, Wild Oats, Wild Mustard and other destructive weeds exact a tremendous sum from the purse of the Canadian farmer. Each year they spread from province to province—infesting Canada's finest farm lands—ravaging crops—reducing farm profits by many millions of dollars.

Weed authorities agree that the situation has reached a stage where the farmer must destroy weeds. They also agree that in fighting and finally defeating this disease, the farmer must be his own doctor. Others may prescribe effective treatments, but the application of these treatments can be undertaken only by the owner of the land himself.

Realizing the need for immediate action and with the idea of assisting farmers everywhere, Imperial Oil Limited is preparing a free book which covers the whole problem of weed eradication. It tells in simple, understandable English how "weed disease" can be cured. By following its suggestions and adopting the principles enumerated in its pages, every

Canadian farmer can make great strides toward permanently abolishing the weed evil.

This book—"Weed Control"—was written by a practical farmer, the Hon. Duncan Marshall, former Minister of Agriculture for Alberta. It deals comprehensively with every phase of the weed question and contains detailed descriptions of weed-exterminating methods used by successful agricultural colleges, experimental farms and weed authorities in all parts of Canada.

A free copy of "Weed Control" will be sent you on request. Fill out and mail the attached coupon today.

UNITED STATES AFTER TOURIST TRAFFIC FROM CANADA

With an idea of concentrating on Canadian traffic, a bill has been proposed in the United States to create a travel division in the bureau of foreign and domestic commerce, to contact with railway steamship, highway, hotel and automobile organizations. Its purpose, according to its terms, is to investigate, encourage, promote and develop travel of both Americans and foreigners in the United States and possessions.

The statement read: Canada with a population of about 10,000,000 spends about \$85,000,000 a year here; Europe with a population of over 400,000,000 spends here probably half as much. In 1929 England sent us 12,152 and Germany 5,360 tourists. Mexico and Cuba are of importance in this traffic; Mexico probably ahead of England.

We should have tourists exhibits at all important expositions and fairs held in Canada. Canadians should all learn that, on this side of the border, they can apply to any of 90 district and co-operative offices for any ordinary information and assistance, much as if they were Canadian consular offices. We should have all

assistant trade commissioner in each of our offices at Toronto, Montreal, Winnipeg, and Vancouver and a travel trade commissioner at Ottawa.

The division should initiate action, through the State Department, toward inducing the Canadian authorities to enact a \$100 exemption from duty upon goods brought back into Canada by tourists; Canada usually gives us what they think we want. Further action with the Federal Reserve Board is needed to protect our visitors from the extortionate discounts upon paper money in this country.

The only nations which receive definitely more from foreign tourist traffic than we do are France and Canada. France is supposed to have received about \$353,000,000 from its tourist traffic in 1928 and Canada about \$251,000,000.

TOLL OF DEATH 26 IN ALBERTA FIRES DURING YEAR 1929

Twenty-six lives lost, \$4,274,329 in property damage—such was the fire toll in Alberta last year, according to the annual report issued by Henry Brace, provincial fire commissioner.

The majority of those who died were children under 12 years of age. In the previous year the fatalities numbered 25.

An increase of \$536,709 in the loss for 1929 over the previous year is shown by the report. The total for 1928 was \$3,737,620, while last year's included a number of large conflagrations such as Wainwright where the loss was approximately \$300,000, and Three Hills, \$109,000. In addition, there was considerable loss at Tofield and other places. Last year there were less actual fires, however, the number totalling 2,145 as against 2,468 in the year previous.

The cause of 75 per cent of the fires was carelessness, while 16 per cent were of an incendiary nature. Fires were reported to 766 dwellings, 377 barns and stables, 241 stores and 150 garages.

Old Lawyer: "If I can send any clients your way, my boy, I'll gladly do so." New Lawyer: "Thanks, but I don't want that kind."

Firestone GUM-DIPPED TIRES FOR EVERY PURSE

FIRESTONE Tires are famous everywhere for their high quality and low cost per mile. Because of their extra strength and toughness, they hold all world's records for mileage and endurance.

No matter what price you want to pay for tires --- go to your nearest Firestone Dealer. He has a Firestone-built tire for every purse and purpose---tires that offer the greatest value --- that serve you better and save you money.

For Stiff and Aching Joints

Stiff joints caused by sprains or rheumatism can be relieved immediately by Absorbine, Jr. Just rub a few drops well into the affected parts with the fingers and note its delightfully soothing and invigorating effect.

Being a highly efficient antiseptic and germicide as well, Absorbine, Jr., safeguards you against infection. For rheumatic pains, sciatica, lumbago, neuritis, inflammation of the joints and similar troubles, use Absorbine, Jr. It is greaseless and stainless. \$1.25—at your druggists. Booklet will be sent free.

VICE-REGAL TRAIN ABODE OF COMFORT

Echoing the spring colors of the country through which the Governor-General and Lady Willingdon have been travelling, the vice-regal train, in which their excellencies live while on tour, is an abode of charm and comfort.

Like the late Queen Mother Alexandra of England, Lady Willingdon's favorite color is mauve. It is combined with a soft apple green in the extremely satisfactory color scheme of every apartment except their excellencies' own private drawing-room. Designed and furnished by her excellency herself, the very livable rooms of the train are an expression of the charming and gracious personality of the wife of Canada's governor-general.

The gem of all these delightful apartments, which are so intimate of the daily life of their excellencies while travelling throughout the dominion, is the private drawing-room pencilled entirely of natural Canadian curly birch. The color note of the deep blue rug is repeated in the blue drapes. Orange flowered chintz covers the chesterfield, chairs and little footstools. Blues and rich brown repeat in the cushions. Comfortable writing desks complete the comfort of this charming room, which opens onto the observation platform. Old world scenes in which blue is the predominant color, enhance the walls. The color scheme is carried even into the gorgeous box of pink, mauve and blue hydrangeas on the platform.

One of the two vice-regal cars is devoted to the dining-room and lounge room, which adjoin. Harmonizing chintz against the soft apple green woodwork of walls and corner cupboards has a spring-like effect. The table, chairs, sideboard and cupboards with their mirrors all are of the soft green. A striped runner of beige, rose and gold covers the table, which was centred Monday morning with fresh daffodils. Parchment shades for the bracket lamps are in beige and brown, carrying out the shade of the carpet. The dining-room is fitted with a radio, the control board of which has been hidden cleverly in one of the side cupboards.

The same cool tones predominate in the lounge drawing-room beyond, where chintz-covered easy chairs and dainty green writing desks are most inviting. On a gate-leg table, ash trays of green Venetian glass are colorful. Four water colors of rural Quebec scenes on the walls and on the writing desk is an informal picture of their Majesties, taken shortly after the King's illness. In their Excellencies' bedrooms, mauve and white are the colors, while white-tiled bathrooms carry comfort to the last possible degree in travel. Lady Willingdon's room of grey and lavender, with its corner dressing-table, and dressing-room beyond, is charming and comfortable. A picture of her little dog, Misty, holds a place of honor on the walls. In his Excellency's room, with its cream walls and violet carpet, hangs a picture of his spaniel, Moses.

Throughout the train, flowers are arranged in profusion, lovely against the backgrounds of green and violet. Even the corridors of the vice-regal train are home-like with their dark blue carpets and pretty blue window drapes.—Journal.

It even a few friends of The Times will only remember us from week to week in a little way, it will help amazingly to make this paper much newer and therefore that much better from the real test of a paper, the subscriber's standpoint.

Kidney and Bladder Trouble

Mr. J. Ometock, Pincher Creek, Alta., writes:—"I had been troubled with my kidneys and bladder for some time, and had to get up four or five times during the night."

"I tried several kinds of kidney and liver pills, but none of them seemed to do me any good."

"I thought I would try Doan's Kidney Pills and after taking one box I have been able to sleep all night long, and I now feel that they are the only thing to take for the kidneys and bladder, as I have not been troubled since taking this one box."

Price, 50 cents a box at all druggists and dealers, or mailed direct on receipt of price by The T. M. Doan Co., Limited, Toronto, Can.

Neighborhood NEWS

WINFIELD

Miss V. R. Peacock, teacher at Seattle S.D., returned from the Convention at Calgary last week.

Mrs. N. S. Carroll returned from spending Easter holidays in Edmonton.

Mr. and Mrs. E. V. Clark and daughters motored into Wetaskiwin last week.

Mr. Chas. Crowe returned from spending a few days in Edmonton.

Mr. and Mrs. C. MacDonald and baby daughter of Edmonton, and Mrs. J. Gagnon of Portland, Ore., visited at the home of Mr. and Mrs. C. A. Stady last week-end. We understand that Mrs. Gagnon is making an extended visit to her parents here and her sisters in Camrose.

Miss Vera Peacock spent the week-end with friends in Winfield.

The ratepayers of Winfield S.D. No. 494 held a meeting in the school last Saturday. Affairs of the district were discussed, including clearing and fencing the school grounds. Mr. J. A. Woodbridge was elected trustee by a substantial majority.

Mrs. C. B. Long of Pandry, journeyed to Rimbey to interview the dentist recently.

Miss A. Fleming, district nurse, of Pandry, visited the school last Friday.

Mrs. B. Kluczycki and small sons journeyed to Thorby by train on Monday to spend a few days with her mother.

Mr. and Mrs. K. Murray and small sons of Edmonton, spent Thursday with Mrs. Murray's parents, Mr. and Mrs. C. A. Stady, here.

Mr. A. Groulx is remodeling his workshop into a rooming house. The carpenter is Anders Lersand.

The party held in the dining-room of the hotel last Friday evening, was well attended.

BITTERN LAKE

A. H. Holmstrom has purchased a Ford coupe.

E. Bush has rented the farm east of Gouche's formerly Elmer McNary's, and is busy doing spring work.

Miss M. Royer of Salvador, Sask., is practicing teacher from the Camrose Normal this week.

The B.B. gang, who have been working down at the Battle River bridge, finished up Friday, and moved to Daysland.

Mrs. Robert Elgert was in Edmonton the first part of the week.

Clarence Gouchee and Fred McNary have gone to Daysland to work on the Government highway.

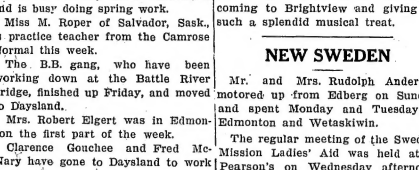

FALUN

Miss Edna Mattson spent a few days with her parents, Mr. and Mrs. E. E. Mattson.

Miss Helen Shantz of Edmonton, was a weekend-end visitor at Falun.

The May meeting of the Falun W.I.

TRAIN TELEPHONE NOW A FACT

The Canadian National Railways, which first made possible the reception of radio concerts on board a moving train, an invention which many first class railroads have since copied, have achieved another mechanical triumph by perfecting the first two-way system of telephone communication in the world with moving trains. The system has been put into public service by the company on "The International Limited," which covers the 334 miles separating Montreal and Toronto in 360 minutes, the fastest train in the world traversing a like distance.

The photograph shows Sir Henry Thornton, Chairman and President of the Canadian National Railways, inaugurating the telephone service from "The International Limited" while the train is travelling at 60 miles per hour. At the train switchboard is J. C. Burkholder, Chief Engineer of the Canadian National Telegraph, who developed and perfected the train telephone system.

FALUN

Miss Edna Mattson spent a few days with her parents, Mr. and Mrs. E. E. Mattson.

Miss Helen Shantz of Edmonton, was a weekend-end visitor at Falun.

The May meeting of the Falun W.I.

held at the home of Mrs. O. Lindstrom, was well attended by 17 members and six visitors. The roll call was answered by a recipe for salad. Mrs. F. Kadlec gave a very interesting reading on "My Ideal Garden," and Mrs. Rodell gave an account of the District Convention, also some very enlightening information as to how each duty should be performed. After the business of the day, the ladies adjourned to a very dainty luncheon. Miss E. Edin, Miss M. Stover and Mrs. Lindstrom were hostesses.

The concert and dance held at Lone Ridge hall on May 2nd under the auspices of the Falun W.I., was a great success.

A number of young people from Falun went on a picnic to Mount Butte, last Sunday.

The friends of little Laverne Nelson are very sorry to hear that she is confined to her bed.

CROOKED LAKE

The Crooked Lake U.F.A. local will meet at the home of E. R. Rasmussen on Saturday evening, May 10th, at 8 p.m. Visitors welcome.

LONE RIDGE

The Lone Ridge Junior U.F.A. will hold their regular meeting on Wednesday evening, May 14th, at 8 p.m. Mr. Black of the Department of Agriculture will address the meeting in connection with the boys' and girls' club. He will illustrate his address on the screen with lantern slides. Mr. Barbour of Lacombe, will also give a talk on the boys' and girls' swine club. The Juniors heartily invite all the Seniors to their meeting. Lunch will be served. Ladies please bring cakes. No charge for admission.

BRIGHTVIEW

On Sunday last the Brightview Baptist Church was favored with a visit from the choir of the United Church in Wetaskiwin. The rendering of special Easter music by the choir and the solo parts taken by Mrs. V. C. French and Madame Asbridge were very much enjoyed by the large congregation which completely filled the church. Our thanks are due to our friends in Wetaskiwin for so kindly coming to Brightview and giving us such a splendid musical treat.

NEW SWEDEN

Mr. and Mrs. Rudolph Anderson motored up from Edberg on Sunday and spent Monday and Tuesday in Edmonton and Wetaskiwin.

The regular meeting of the Swedish Mission Ladies' Aid was held at F. Pearson's on Wednesday afternoon. A good crowd turned out despite the inclemency of the weather.

Albin Swanson has just taken out a new McCormick-Deering tractor. Horvath take the back seat in this community.

Friends of Tony Peterson who recently moved with his parents to the Ponoka district, will be glad to know that he is almost completely recovered.

from a serious attack of pneumonia, which almost proved fatal. Mr. and Mrs. S. A. Anderson and family, Philip Anderson, Miss Fern Larson, Miss Laverne Larson, and Miss Florence Pearson, motored to Edberg on Sunday, spending the day with Rudolph and Hjalmar Anderson. Mr. and Mrs. Roy Harris motored out to visit with Mr. and Mrs. Charlie Wybert at Breton on Sunday.

DAIRY BY-PRODUCTS TURN LOSS INTO GAIN

Dairy production in Canada is slowly forging ahead, but along new lines. The Dairy and Cold Storage Branch of the Dominion Department of Agriculture report an increasing demand for what might really be termed the by-products of the industry. The production of butter and cheese shows a decline in volume, while "miscellaneous factory products" and "milk consumed fresh or otherwise" show a big increase, and it is this increase which is responsible for the net gain in dairy production during the past five years of over \$13,000,000. More fresh milk and cream are being used today than ever before; ice cream continues to grow in popular favor, and there is a striking increase in the amount of milk which is being processed for sale in evaporated, condensed, concentrated and powdered form.

PLAN CO-OPERATION COMMERCE BODIES

Washington, May 3.—Closer co-operation between the Canadian chamber of commerce and the chamber of commerce of the United States was among the subjects discussed by the respective presidents of each organization at an hour's conference yesterday afternoon.

Representing Canada were Col. J. H. Woods of Calgary, president, and W. McL. Clarke of Montreal, secretary of the Canadian chamber.

The address made by Mr. Woods before the chamber Thursday, received considerable attention in the press yesterday and was the subject of favorable comment by members of the chamber.

The opinion was unofficially expressed that with tariff legislation in its final stages in congress the references made by Mr. Woods on this could not be expected to have immediate effect despite the fact that members of the chamber, judging from the applause, realized the justice of the sentiments he expressed.

It was felt that a profound impression, which would be of considerable value in the future, had been created by Mr. Wood's address.

ALBERTA BAPTIST SUMMER ASSEMBLY

The tenth annual gathering will be held on the Baptist Camp grounds at McLaurin Beach on Gull Lake, near Lacombe. A Boys' Camp, July 1st to 11th; Girls' Camp, July 11th to 21st; the Assembly, July 22nd to August 3rd.

The committee are making preparations for what promises to be a very large gathering. They will conduct a store with everything needed in the way of food, at Lacombe prices; a well-conducted dining room with meals at reasonable prices; huts to rent at low prices, or tents if such are desired. There are cottages to rent, and furnished rooms for those who would require such.

UNIVERSITIES OF CANADA PRAISED

Edmonton, May 1.—Glowing praise for the universities of Canada and that of Alberta in particular was forced by headmasters of English schools who visited Edmonton Wednesday at a dinner given by the provincial government in their honor last night.

Speakers during the evening stressed the wonderful opportunities which await Canadian boys who come to Canada to finish their education under Canadian conditions and the important part such youths might play in the building of Canada.

The dinner was featured by the meetings of former British school pupils with the headmasters, the dinner having been primarily arranged to allow such renewing of acquaintances.

Premier Brownlee extended greetings of the provincial government to the visitors.

ANOTHER BIG HONOR COMES TO NORTHERN ALBERTA

Ottawa, May 1.—Captain Wilfrid Reid ("Wop") May, D.F.C., chief pilot of Commercial Airways of Edmonton, has been awarded the McKee trans-Canada flying trophy for 1929, the committee appointed by the department of national defence to select the Canadian judged to have contributed most to aviation during the past year, having unanimously declared in favor of him.

Captain May, or "Wop" May, as he has been known ever since civil aviation history began in this dominion, is the third westerner to capture the handsome silver memorial, and to have his name engraved on one of the shields, which, when completely filled will represent a roll of honor in flying second to none in the world.

GANDHI ARRESTED AT JALAPUR

Bombay, May 5.—Mahatma Gandhi, Nationalist leader, whose arrest in the civil disobedience campaign has been frequently predicted during the past week, was suddenly taken into custody in the village of Jalapur. He was arrested under regulation 25 of the laws of 1827 and will suffer imprisonment during the government's pleasure.

Under the terms of a regulation more than a century old, the idol of the Hindu masses will remain in prison at the pleasure of the government of India.

BONDS OF ALBERTA ARE SOLD

Sale of \$5,000,000 worth of Alberta Treasury Bills, maturing in six months for delivery in New York and payable in this city, at a price of 99.68 was announced on Friday by Hon. R. G. Reid, provincial treasurer and minister of municipal affairs.

This price was the best obtained by any province in the Dominion in recent years.

At better by a considerable margin the sale made last October by the province of \$5,000,000 worth of 30 year five per cent debentures at 98.323 or a cost basis of 5.11 per cent.

This price was the best obtained by any British Empire bonds last year with the exception of British treasury debentures.

NEW VOTERS' LIST WILL BE PREPARED

Alberta voters will operate on a new list which will be prepared for the provincial election on June 19, according to John D. Hunt, chief returning officer for the province.

There has been some doubt as to whether the 1926 list would be revised and used or whether advantage would be taken of municipal lists.

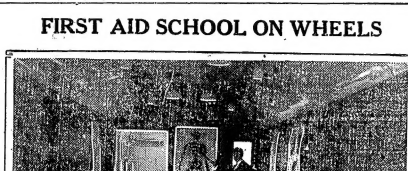

Now it has been quite clear that an entirely new list will be made up. When the writs for the election are issued, following the proclamation by the lieutenant-governor dissolving the legislature, the various returning officers will be appointed.

Enumerators will be appointed for each polling division in the province and it will be their duty to prepare a proper list of voters for their district.

The lists will later on have to be posted up in conspicuous places while on June 17, between 10 a.m. and 4 p.m. appeals to add or strike off names on the list may be made to the revising officers.

Use The Times Want Ad. columns.

FIRST AID SCHOOL ON WHEELS

With a view to extending adequate First Aid instruction to its employees in the outlying sections of the system, one of the three new First Aid cars which have just been completed for the Canadian National Railways have been placed in the Western Region for service. Fully equipped and in charge of a competent instructor, the car will travel to outlying points, bringing courses of instruction to engine men and train men, agents and construction and maintenance of way men who have ordinarily no means of obtaining this knowledge. While their primary use is for instruction, they are, as well, travelling stations ready to assist in emergency, and are the first cars of this type to go into service on a railroad in Canada.

SPORT

SPORTS ASSOCIATION
MEETING TOMORROW

The annual business meeting of the Wetaskiwin Sports Association will be held in the Council Chamber (public library) tomorrow (Friday) evening at 8:30, when reports of the past year's activities will be presented by the officers, and organization perfected for the current season. It is urged that there be a large turnout of citizens in general as many important matters will be up for consideration, including track and field athletics, team play sports, and the proposal for the erection of a civic gymnasium and skating rink.

WETASKIWIN WINS
BASKETBALL GAME

The Wetaskiwin basketball team went to Camrose on Wednesday of last week, for a friendly game and succeeded in defeating their opponents by the score of 16-12. The game is reported as being fast and some what rough. All the Wetaskiwin players were right on when it came to shooting, and one of the features of the game was that not one free shot was missed. It is expected that a return game will be played shortly. The Wetaskiwin players were, M. Inglis, centre; forwards, B. Dickson, Iona Hanson; guards, Evelyn Beaver, Minnie Ruperts; subs, Marguerite Gable, Mary Dixon.

BASEBALL

WETASKIWIN WINS GOOD GAME FROM HOBEBMA INDIANS
On Thursday evening, May 1st, the Wetaskiwin Athletics met the Hobema Indians on the Wetaskiwin diamond for their second game of the season, as well as their second victory. The game was more or less a pitcher's battle, Fairwell allowing only 10 men to 1st, out of 32 men up, with a total of 23 bases resulting in three scores.

Hodson allowed 13 men to 1st out of 33 men up, a total of 36 bases resulting in five scores. Both men had good support from their team mates, making the game good to watch throughout. Any Mr. or Mrs. Wetaskiwin Fan who did not see this game missed an evening's good entertainment. The line-up was:

Athletics	Indians
Cole c.f.	Kramer
Weyberg s.s.	Snake
H. Overn r.f.	Kramer
Turness 2b	Small
Watson 3b	Small
Fairwell p	Hodson
Mason 1f	Bampton
Pritchard 3b	Child
Overn 1b	Snake

FERINTOSH DEFEAT ATHLETICS IN INDIFFERENT GAME
Journeying to Porcupine Sunday, May 4th, the Athletics met with their first defeat at the hands of the players of that town. Ferintosh was in good form and played alright ball all the way through. Mitchell was invincible. In the nine innings he pitched, only 36 batters faced him, an average of four to the inning. He allowed only 13 men to reach first base, and two crossed the plate for tallies, the other 11 died somewhere on the desert in great mental anguish. Fairwell pitched a good game for the Athletics, but had very poor support. The errors in fielding were both numerous and costly. Alcher brought in the two tallies for his team, one being a homer to deep centre, the only sensational play of the game. No men were on bases at the time.

Box score:
Athletics 5 0 1 0 0 0 0 2
Ferintosh 5 0 0 2 0 0 3 x 10
The line-up was:
Athletics Ferintosh
Cole c.f. G. Smith
Weyberg s.s. G. Smith
H. Overn r.f. McLeod
Alcher 2b Richmond
Watson 3b Mitchell
Fairwell p Gould
xMason 1f Iversack
Pritchard 3b Holmes
R. Overn 1b Ross
xTurness went in 3rd inning.

WEED BOOKLET IS INTERESTING WORK
An interesting and attractive booklet for farmers and others interested in the eradication of weeds has just been received at this office from Duncan Marshall, executive director of Agriculture for the Province of Alberta. The booklet, which Mr. Marshall compiled, deals with practically every angle of weed control and has chapters written by many Canadian authorities.

Charles Ager, M.P.P. for Saskatchewan, contributes an article on "Livestock Farming in Fighting Weeds"; Prof. J. H. Ellis, B.S.A., Manitoba, writes on "Crop Rotations"; W. J. Stephen, B.A., B.S.A., of Edmonton, deals with "Weed Control in Alberta," while other chapters on cleaning weedy farms, another crop, killing wild oats and on other phases of weed control are also included.

The booklet is published by The Imperial Oil Co. Ltd., and copies may be obtained free by mailing the coupon which will be found in their advertisement in this issue.

FIRST ISSUE OF NEW
GEOGRAPHICAL PAPER
RECEIVED BY THE TIMES

The first issue of the new Canadian Geographical Journal has been received at The Times office. This magazine is the official publication of the Canadian Geographical Society and certainly does credit to those responsible for its general appearance and contents. A \$3.00 membership in the society includes a subscription to the magazine. The only qualification for membership is sympathy with the society's objects. This issue of the magazine includes sixteen pages of full-color illustrations together with hundreds of beautifully reproduced half-tones.

WILLINGDON'S REMAIN
FOR ANOTHER WINTER

Ottawa, April 29. — It has been learned in Ottawa, that contrary to rumors Lord and Lady Willingdon are remaining to spend another summer at The Citadel and another winter in Ottawa. They will function at one more opening of Parliament then will return in the springtime to their home—England.

It is quite probable that Their Excellencies will go to London first, as they sold their country estate some time ago.

Plans have been made for the parties in Quebec this summer at which Their Excellencies will be the hosts.

LANDS TRANSFER

Ottawa, Ont., May 3.—Amid rounds of applause, the Dominion Government's natural resources agreements with Alberta and Saskatchewan were ratified in the House of Commons yesterday. Third reading was given the bill midway through the afternoon session. There was no discussion.

200 LOSE LIVES IN
TYPHOON IN JAPAN

Tokyo, May 3.—Death toll in the typhoon which swept the southern portion of Saghalien Island and the northern coast of Hokkaido reached nearly 200 today in reports to the Japanese government. Property damage has been estimated at \$2,500,000.

Here and There

(506)
From obscurity to world power is the record of Japan within the past fifty years, says Dr. Nasawa Kamo, Tokyo University professor and chairman of the Japanese National Committee on world power congress, here on a tour of Canada representing the Japanese Empire.

He attributed the growth of his country to her progress in engineering.

The British Bowling team which has played 16 matches in Los Angeles in the last two months, losing five and winning eleven of the games, sailed for England about the middle of the month. They came out to win the American Bowling Trophy, but the five games lost were in that event, and they must wait next year for another attempt.

Seventeen European races contributed songs, folklore and handicraft work while inhabitants of Labrador, the Arctic Circle, the Maritimes, Pacific Coast, and Indians furnished their quota towards the brilliant success of the Great West Folk Dance, Folk Song and Handicraft Festival, held at Calgary, March 19-22. The Premier of the province, the Lieutenant-Governor and D. C. Coleman, vice-president Western Lines, and J. M. Gibbon, General Publicity for the Canadian Pacific Railway, gave inspirational addresses in this effort to "broaden, stabilize and elevate Canada's national consciousness."

Reoccupation of Europe from economic ill effects of the war and the return of European nations to active and formidable competition in world's production is making it more and more essential for Canada and the United States to develop the vast potential markets of the Orient," said Louis Geunther, publisher of the New York Financial World, who sailed from Vancouver recently aboard S.S. Empress of Asia for a tour of China and Japan.

Widespread interest aroused in the United States as well as Canada by the musical programmes broadcast by the Canadian Pacific Railway on Friday evenings over its own transcontinental network have led to negotiations between the railway and the National Broadcasting Company of New York, under which Canadian Pacific will broadcast a series of Canadian programmes made in Canada by Canadian talent. Five million dollars is estimated to be reached by this extension, which commenced first week of April.

Dairying was a profitable industry in the three prairie provinces of Canada last year when its value totalled \$7,529,000. In eleven of the large exhibitions held throughout the country during that year these three provinces were awarded eighty per cent of all first prizes in butter and 82 per cent of all prizes in over half of which went to Manitoba.

According to a recent compilation made by the Canadian Government Bureau of Statistics, the average value of the occupied farm lands of Canada as a whole, including both improved and unimproved land as well as the dwelling houses, barns, stables and other buildings, is returned as \$37 per acre for the year 1929.

ISN'T IT FUNNY

That so many business men
Will get up in the morning,
Refresh themselves with a dose of advertised fruit salts,
Clean their teeth with an advertised tooth brush and advertised tooth paste,
Shave with an advertised razor,
Wash and shave with advertised soaps,
Put on an advertised hat and gloves,
Light an advertised match,
Go to the station in an advertised motor car,
Dictate letters to a typist
Who types on an advertised machine,
Using advertised carbons,
Sign their letters with an advertised pen
Containing advertised ink.
And
Turn down a proposal to advertise on the ground
That advertising doesn't pay!

BOILS

The unbroken healthy skin is an effective barrier to the entrance, into germs with which the skin is brought into contact.

There are germs, commonly called disease germs, which cause certain specific diseases, such as diphtheria and typhoid fever. There are other germs which are very common; some of these are probably always present on the skin, but as long as the skin is unbroken and healthy, they do no harm.

The skin may be broken in many ways, such as when it is cut, scratched or bruised. The skin is an important part of the body and, as has already been mentioned, if one part of the body is upset, other parts are apt to suffer. The healthy condition of the skin is lost and its power to resist the action of germs is more or less decreased in the presence of actual diseases, such as diabetes. The skin is also injured by upsets of the digestive tract, by faulty diet, and by an unhygienic life which starves the body of fresh air, cleanliness, and over-clothing, which results in five perspiration and irritation of the skin, lower its resistance.

As a result of the occurrence of one or more of the above conditions, the normal resistance of the skin is lost or decreased; then, the germs present on the skin are enabled to gain a foothold. The result of their activity is inflammation—redness, swelling, pain and the production of pus. Boils are infectious in the sense that they are caused by living germs. In the treatment of boils, this fact must be kept in mind, and the boil should be treated with the same strict cleanliness that is used in all surgical treatments.

Considerable harm may follow the squeezing of boils. The individual's hands should be kept away from the boil and it should be opened and treated at the proper time by a physician.

In some cases, vaccines are used to

raise the resistance—fighting power—against the germ. In all cases, the general health must be considered. Proper diet, exercise, fresh air, body cleanliness, regular elimination, all go to make up a hygienic life.

The occurrence of boils in most cases means that the sufferer has not been giving the reasonable care to his body that is required if a condition of health is to be maintained. To have a healthy skin, it is necessary to keep the whole body in a state of health by living a hygienic life.

Questions, concerning Health, addressed to the Canadian Medical Association, 154 College St., Toronto, will be answered personally by letter.

GRAVELLING HIGHWAYS
COST \$3200 PER MILE

(Research Bulletin)
C. A. Davidson, Highway Commission for the Province, states that grading for a new highway through a town costs approximately \$1000 per mile for the grading and \$2200 per mile for gravelling, making a total cost of \$3200 per mile for a 24 feet width.

The annual maintenance of a gravelled road he puts at a cost of \$450 per mile.

He asks Town Councils to keep in mind that the present gravelled surfaces of the Calgary and Edmonton highways are a town's expense. The highway is not typical of what it will be five years hence, as a harder surface will be used by that time in the way of paving.

He recommends looking ahead and preparing for the future, and strongly urges that the Calgary and Edmonton round the outside of a town so that the heavy truck and through traffic may be diverted from town or city streets where traffic may become congested.

In no case will the Provincial Department allow a main highway to pass along in front of a school.

The town of Leduc is an example at present of bad conditions, where the main highway has to make circuitous right angle turns in the very centre of the town. To avoid this the Government is willing to defray the cost of maintenance if the highway is diverted round the outside of the town limits. Where the highway does run through any town, however, the Government will defray 50% of the total cost of a 24 feet width. Should weeks—Canadian.

the town require a larger width the corporation has to defray the full cost of the extra width.

WEED CONTROL PROGRAM

The Alberta Department of Agriculture has now completed its plans for the weed control programme of 1930.

Under the Field Crops Branch the Province has been divided into fifteen districts. In each of these districts a Field Supervisor will be stationed. His duties will be to cooperate with Weed Inspectors appointed by Municipal Councils, and in Local Improvement Districts, in general Weed control work and the enforcement of The Noxious Weed Act.

Farmers of the Province are urged to avail themselves of the services of these men. Their office centres are being advertised in this issue.

ROAD WORK STARTS

Bawlf, April 26.—Construction of the Wetaskiwin-Hayter trunk highway has commenced at Bawlf, one mile east of town. On Tuesday the agent was purchasing the land for the road between Bawlf and Oshonot. A dozen or more men are busily engaged extending and some repairing the government telephone line in Bawlf district.

CHILD FATALLY BURNED
Edmonton, Alta., April 28.—When Eva Dubois, 13, boarder at the St. Paul convent, tried to speed up the kitchen air by pouring gasoline over it, the can exploded in her hands and the little girl was fatally burned, dying soon after being admitted to the St. Paul, Alberta, hospital.

The growing parade of thousands of women who march through the 2,000 beauty parlors of Chicago and vicinity leave behind \$35,000,000 a year, it was revealed today. And there is an increasing number of men coming to beauty specialists to have their grey hairs retouched in order to keep their places in a business world that is demanding young men.

Final plans for the proposed new High school to be erected in Camrose this year were approved at a meeting and it is expected tenders in order to keep their places in a business world that is demanding young men.

Control Noxious Weeds

Untold damage has been done to Alberta's Crops by Noxious Weeds. Alberta requires the services of every good citizen to combat this growing menace.

Know Your Weeds

Learn to recognize the common weeds. Report their presence. Become familiar with their habits. Control them.

For information consult local Weed Inspector, your nearest Field Supervisor at Lethbridge, Glenshire, Brooks, Medicine Hat, Hanna, Coronation, Leduc, Red Deer, St. Paul, Smoky Lake, Wainwright, Grande Prairie, or

SEYMOUR OUTLINES PLANNING SCHEME

Lacombe, May 3.—A meeting of the town planning commission was held here today, in the town hall. Representatives were present from Bentley, Camrose, Olive, Aik, Sylvan Lake, Aspen Beach, Red Deer, Stettler, Wetaskiwin and Lacombe. These were from town planning committees, boards of trades, municipal councils and town councils.

The Hon. Irene Paribby, member for this constituency, H. L. Seymour, town planning commissioner, and W. E. Zinkin, engineer of Edmonton, were among the visitors. George DeLong was elected chairman and N. E. Carruthers, secretary. Mayor T. Jackson gave an address welcoming the delegates and congratulating the

government on its excellent town planning act.

H. L. Seymour addressed the meeting at length. He outlined the general scheme and with the aid of several maps demonstrated how it would work out in a town like Lacombe. It embraced highways, parks and the various types of buildings in towns and cities. Zones were established and authority was given to restrict building in these zones.

Mr. Sinclair said that the new towns in the Peace River district were taking advantage of the regulations and building rights. He was followed by Mr. Zinkin, who featured the value of consulting engineers in the laying out of streets and erection of certain types of buildings.

Following the meeting the delegates were taken out to Aspen Beach, Gull Lake, where a park has been started by the government under the town planning commission. The new pier put in during the winter was badly damaged by the ice which at one time was piled up as high as a house. The piling was lifted out and the stones carried away. This will be remedied.

THOUSANDS OF WILD GEESSE NEAR PROVOST

Provost, Alta., May 5.—"There's millions of geese there now," says S. E. Ellergood, of Fernia, who returned last week from a visit to the farm of his father, H. C. Ellergood, about nine miles south of Castor. "Millions may be a little figurative," he continued, "but there are untold thousands, and they look like millions to an ordinary observer."

The Ellergood farm, on lake, together with Sullivan Lake about two miles away, is one of the wonder places of the Dominion every spring and fall, when the annual migration of the geese from end to end of the continent takes place. It rivals the famous Jack Miner brick field near Kingsville, Ontario.

Like his Eastern compatriot, Mr. Ellergood, Sr., has made his farm a private sanctuary or bird refuge, where every spring countless thousands of wing weary feathered wayfarers find rest and security on their semi-annual pilgrimage half around the world.

Besides the noble Canadian geese, which forms the bulk of the immigration, thousands of the white breast geese, better known as "waveries," and hundreds of swans have learned to accept the hospitality of Mr. Ellergood, and the sight of countless myriads of migrants at this time of year is one never to be forgotten.

90 BIG CATTLE IN RECORD SALE

The highest price for a big string of cattle of the heavy type, probably a post-war record at Edmonton stockyards, was realized for four carloads sold on Thursday. These steers of the heavy class brought \$11.00 per cwt. The 80 head netted the seller an average of \$131 per head, while 10 smaller cattle in the baby beef class averaged \$95 per head. The deal passed the \$11,000 mark.

They were an exceptionally fine lot of grain fed butcher cattle and were stock of mixed breeds. Hereford, Shorthorn and Angus, purchased on the Edmonton market last summer as feeders when their weight averaged 800 lbs. They returned to the same market 50% heavier as finished cattle. On feed since November, they were fed in box stalls, in lots of 6 to 8 head, loose. The rations included ensilage, barley, cut oat sheaves and upland hay.

These cattle were fed by A. R. Mann at Scotford, shipped by Atkinson Bros. of Port Saskatchewan, and sold by Weiler & Williams to Swift, Canadian company. Of the 90 head, 80 averaged 1,196 lbs. and fetched \$11.00; 4 baby beef averaged \$80 at \$12.00 and 6 averaged \$25 at \$11.25.—Journal.

Bladder Weakness Makes Life Misery!

Daily Annoyance, Troublesome Nights
States "Writer Who Tells What To Do For Quick Relief"

Backaches, Headaches, Pains in feet and legs, Nervousness, Restlessness, frequent but scanty urination with burning and pain, getting-up-nights—are some of the more troublesome signs that should have prompt attention before they reach a more serious stage.

No matter how stubborn your case may seem to be or how many medicines you have tried without results—don't think your condition is hopeless or the natural consequence of advancing years until you have tried the amazing value of Dr. Southworth's "URATABS."

On a strict guarantee of money back on first box purchased if you do not receive swift and satisfying relief—any good druggist will supply you with "Uratabs" in sealed pack, each containing a ten days' supply. If they bring great relief inside of 48 hours and a wonderful improvement inside of ten days, you will be greatly pleased—if they do not help, they cost you nothing! Ask your druggist today.

PREPARES SYNOPSIS IMPORTANT LAWS

Another edition in the Library of John D. Hunt's "Synopsis of Important Acts," being the legislation passed at the late session of the legislature, is just off the press. It is the quickest time the author has made since he began the series, but follows the same plan as in preceding numbers.

Brief summaries of 72 acts are given in the book, with some, such as the new mines' act, detailed at greater length. The companies' act is also reported somewhat fully.

A Bad Cold Finally Ended In Bronchitis

Mr. Albert Schultz, Kelvington, Sask., writes:—"For several weeks I had a very bad cold, and finally it ended in bronchitis. I had been trying all kinds of medicines, but none of it seemed to do me any good. Finally I saw where Dr. Wood's Norway Pine Syrup was advertised as a relief for bronchitis, so I got a bottle and after I had taken it I started to improve, and by the time I had finished the second one I was entirely free of my trouble."

Price, 35 cents a bottle; large family size 60 cents, at all druggists or dealers. Put up only by The F. Milburn Co., Ltd., Toronto, Ont.

Renew your subscription to the Wetaskiwin Times now.

Here and There

(619)
With a prepared acreage greater by 31 per cent. than that of 1929, a better moisture situation and other indications promising general good conditions for the year, the Canadian West is now busy seeding, according to the latest report of the agricultural department of the Canadian Pacific Railway.

Nearly \$28,000,000 was voted by the Ontario Legislature recently for hydro-electric development work to be undertaken this year in the province for the Ontario Hydro-Electric Commission, a provincial government organization. Over \$18,000,000 is to be spent on the extension of the Niagara hydro system, upon which many millions have already been spent to provide cheap electric power over a wide area of rural and urban territory.

"There is a very large amount of capital in England ready for investment and it is felt in that country that it should go to Canada," said Major L. A. Jones, economic editor of the London Morning Post, who landed recently at Saint John from S.S. Duchess of Atholl, on a trip to Canada for the purpose of fostering better economic relations between the Dominion and the Motherland.

Four new game refuges adding 500 square miles to the existing 640 square miles of game sanctuaries in New Brunswick are to be established in that province for the purpose of preservation of the game supply, according to information given out by Hon. Charles D. Richards, Minister of Lands and Mines.

Fish caught by commercial fishermen in Canadian waters last year had a value of about \$55,000,000. Over 100 countries bought fish and fish products from the Dominion in 1929, valued at \$38,000,000. More than 80,000 persons find employment in Canada in the fishing industry.

The wild rose is now the floral emblem of the province of Alberta. The provincial parliament has enacted the legislation making this flower which grows so profusely all over Alberta, the provincial symbol. Choice of the emblem was put up to the school children of Alberta and the wild rose captured most votes, with the tiger lily next in favor.

Homestead entries taken out through the Dominion Land Office at Edmonton during the month of March last broke all records for that month with a total of 277 homesteads and 19 soldier grants which compares with 230 homesteads in March, 1928, the previous record March.

Contrary to the general impression, Canadian investments in the United States are greater, per capita, than American investments in the Dominion. An official statement just issued shows that the average Canadian has \$100 invested in the United States and the average American about \$29 invested in Canada.

Something more than appearance will be necessary for grain to win a prize at the World's Grain Exhibition and Conference to be held at Regina, July 25 to August 6, 1930. All entries getting into the prize money at this exhibition will be expected, be in demand for seed. It is because of the importance of the effect of the distribution of this prize seed to farmers in Canada and throughout the world that the Awards Committee has decided that the usual judging standards will be supplemented by a growing test, which in reality is the test supreme.

Ottawa, May 3.—Hon. Vincent Massey, Canadian minister to Washington, will succeed the late Hon. P. C. Lawton as high commissioner to Great Britain.

Of Course Sixes Beat Fours

But in the **ESSEX** Challenger

you get a Super-Six

The Super-Six principle gives the New Essex Challenger easy dominance over conventional Sixes. Look at the records. They show what any new Essex Challenger can do. No "Six" ever proved such all-around Performance, Reliability and Economy.

Essex Keeps its Newness for Years

The Super-Six principle frees Essex from vibration. It saves driver and car from nerve-pounding discomforts. It makes Essex a long-lived car.

Modern, balanced design accounts for this. A completely balanced power line plus the Super-Six principle and the Lanchester balancer are a part of this careful engineering.

Big and Roomy, Too

The new Essex Challenger is big

and roomy with ample interiors and greater comfort. Beautiful interior appointments carry out the fineness and distinction of this car.

Everyone knows Sixes beat Fours. Every owner knows that a Super-Six as decisively beats the conventional Six.

\$885 for the Coupe

f. o. b. Windsor, taxes extra
Seven other models just as attractively priced. Wide choice of colors at no extra cost.

THE MAN WHO PAYS

The will to pay is hereditary, just as much as red hair or buck teeth. It is a common fallacy that a man pays his debts because he has money. This is not necessarily true. On the contrary the matter of paying has only a remote relation to money.

On the one hand is your friend with abundance of money, who cannot be cooled, threatened, beaten or gassed into paying the most ordinary debt. On the other hand, the poor fellow without a visible dollar—you know him—who is Johnny on the invoice. Money has little to do with either case. It is the breed of the man.

The man who pays is the man who thinks in advance. He never flashes a roll; he does not drive a car and carry a mortgage at the same time; he does not hang up the butcher or the grocer for food that he cannot afford to eat; he never lights the fire without wondering where the coal man

gets off. He never throws the bull, nor pitches the bluff, nor gives notes, nor writes cheques dated to-morrow, but when the bill comes in he is there with the coin of the realm, God bless him.

Sometimes he feels sore at the rest of us. He does not see that he gets on any better than the fellow who skins as he goes. Still he goes on and on, and pays and pays, simply because it is in the breed.

And after all the world does think

a lot of his breed. The man who pays is the bulwark of Society. He is the balance wheel of civilization. He is the mainspring of commerce. Business blesses him, and he has honor among men for all time.—Exchange.

KITCHENS and CASTLES

Donald was perfectly able to furnish the suburban cottage if he chose. He did not, however, choose to humor what he said frankly was an extravagant whim. "Show me that you can keep house with what you have—then talk about this queer color scheme you rave about. I never heard mother speak of having a turquoise dishpan or a blue double boiler. Oatmeal tastes good, no matter whether it's put in a blue pan or one of pink. Pads it is, not sense."

The question of the acquiring of some yards of turquoise fabric to cover the scarred table and cupboard brought the family far to a climax. The material was surprisingly inexpensive. Jean held her sample against the dubious wood of the corner cupboard and, closing her long-lashed blue eyes, dreamed of a gay kitchen to match the bit of blue.

"Uncle Jim wrote that he'd take me on his trip to Scotland if you could spare me. He'll come back on the return trip of the Empress. And, cried Jean, excitedly, as she saw the familiar negative shake of the sandy head opposite, "I'm going. Going, do you hear? Why should I stay here and spoil my hands when I could be seeing Edinburgh castle again? I love to look at it by moonlight. Uncle Jim and I are kindred spirits. He loves poetry and ocean trips and things like I do."

Donald cast a grim look down at his plate. His mouth was set in a stubborn line that matched the pink, primmed lips of Jean's. Once Jean's mouth had seemed made for laughter, but the misunderstandings and the bleak atmosphere of the faded old home had changed her. She felt as though Donald's mother still lived, in spirit, in that house and that that model housekeeper thoroughly disapproved of the tired little bit of modernity who longed for a gay and suitable environment.

"Go, if you wish," the words shot out abruptly. "I've felt lately that you were not satisfied."

It wasn't until she had been away from home for three days that she began to regret her hasty departure. Her uncle had been unexpectedly detained in Chicago and Jean had not notified Donald of her unexpected stay at the Congress. Donald had put her in a taxi to go to the station, where she would meet her Uncle Jim, and had then hurried to his office. "As though," she had told herself fiercely, "he were glad to be rid of me." She had scarcely glanced at the cluster of spiky carnations he had bought for her—had been ungracious when he handed her the latest Galsworthy book to read on her trip. "As though I wanted to read anything to improve my style," she had reflected. Jean sometimes wrote poetry which Donald smiled at. "Anyway, the title fits the case, for 'Swan Song' is what I'd sing if I felt like singing anything. I'd have liked something frothier."

But Chicago without the quiet but companionable Donald seemed a desert to the spoiled girl and even the evenings of theater and concerts had not consoled her. Her Uncle Jim had listened without comment to her lame excuses that Donald spend his evenings with them, but she had the impression that he disapproved.

"The skyline is wonderful," she heard a woman at the next table say: "like gray castles against turquoise those buildings are."

Jean fell into one of her dreams promptly. Again she was in Edinburgh looking down first at the gay flowers in the square and then up at the rocky hill that led to her favorite castle.

"I'd like to live in a castle," she meditated, then her comment was caught back her vague flight on the unsubstantial back of Pegasus. A castle of that age would not be apt to be equipped with the modern

Acidity

The common cause of digestive difficulties is excess acid. Soda cannot alter this condition, and it burns the stomach. Something that will neutralize the acidity is the sensible thing to take. That is why physicians tell the public to use Phillips' Milk of Magnesia.

One spoonful of this delightful preparation can neutralize many times its volume in acid. It acts instantly; relief is quick, and very apparent. All gas is dispelled; all sourness is soon gone; the whole system is sweetened. Do try this perfect anti-acid, and remember it is just as good for children, too, and pleasant for them to take.

As a drugstore has the genuine, prescription product.

PHILLIPS
Milk
of Magnesia

76 beats 36

Read this wonderful letter from a man of 76 who is "more active than 40 years ago," thanks to the "daily daniel" of Kruschen Salts.

As a subject of both good and bad reputations for just over 10 years, I wish to acknowledge that I have found nothing so absolutely certain as Kruschen Salts. I have used other salts and have their virtues, but also their drawbacks. Kruschen Salts have no far found after 5 years or more of using them, have no drawbacks and no counter-indications. I use 10 to 20 more active than 40 years ago.

Original letter on file for inspection.

Kruschen Salts is obtainable at drug and health stores in Canada at 75¢ a bottle. A bottle contains enough to last for 4 or 5 months—good health for half-cent a day.

luxuries that American women considered necessities. There would, likely, be mice and dubious drains. Jean smiled at this fancy. A castle might be romantic, but Jean's smile vanished. Her mind had leaped ahead again. She loved Scotland, although she had only a faint strain of Scottish blood in her. But she was thinking of that factor of a Scotchwoman's character: Loyalty was the word. Loyalty to ideals and to life. She saw herself, as she sat in the flower-scented room, that thrilled with music, as a shirker; one who had accepted without thought but who denied any responsibility in the joint work of marriage. She had done her work carefully, touching her dishes with lazy abhorrent fingers, dropping her tea towels about instead of scolding them and putting them out in the sunshine. She had sulked and drooped and complained instead of telling her husband frankly that she must have adequate tools to accomplish worth-while work. Now she was sitting off to Europe to play while he remained at work.

"I don't care," said Jean aloud, then bit her lip. No one had heard though, for some one near her hummed the words to "Laugh, Clown, Laugh." "I'm going to laugh," she told herself, "and I'm going back home tonight." Donald might not want me back," she worried, her mind suddenly alert to the danger of leaving a husband alone. And the spiky carnations suddenly assumed a new value in her mind. Sturdy and sweet and enduring they were. Donald was like that. Co-trite and frightened, she planned shaking her head when a man asked her to dance, glad when her uncle suggested going back to the hotel. "I guess this gay crowd bores you, Jean."

Breathlessly she told him of her change of mind and he agreed to take her out to LeGrange that night. When their taxi stopped before the old house that Jean called a bungalow because it was on one floor, she looked out eagerly through the snowy trees. There was a light.

"Run on in, Jean, I'll follow presently," was the tacit command. Donald sat hunched over the dining-room table and Jean's heart sank. He was working and might be cross.

"Donald, I'm sorry. I came back," she cried, hurrying herself across the littered room and landing in the arms he swiftly opened to receive her. "Castles and heather and moonlight can't make up for home."

His tired eyes twinkled as he caught the familiar smell of violets that always heralded his fragrant if lazy little bride, and he held her close a moment before speaking. "I'm sorry, too, Jeanie. After all a woman's home is her kingdom, and we're going to live in the spring. Meanwhile, I've been making out a list of some things you want for your kitchen. Maybe," he finished quaintly, "you can make believe it's a castle."

Pasted to the lengthy list was the scrap of turquoise fabric that would in the generous estimate he had made turn that shabby kitchen into a beauty.

neers, above all things, their devotion to the suffering soldiers whose legacies from the war are broken bodies and permanently impaired health. They have not forgotten the promises of everlasting gratitude which they made those men during the war. Even in these days when most of us are once more in full pursuit of our own advantage and little else and the inside of a soldiers' hospital ward is something which interests us even less than before the war, these Empire daughters are still, nearly twelve years after the last shot was fired, ministering to the wounded or watching at the base of the pedestals which mark our memory of the dead.

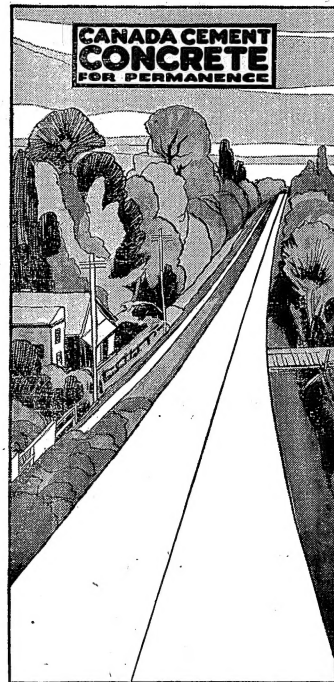

Thus far the order has devoted itself solely to the cause of Empire. It has explored no bypaths, however tempting, but remained consecrated to its sole task. And if ever there is a monument erected to Women Who Kept their Heads the main inscriptions should be to the Imperial Order of Daughters of the Empire—Calgary Albertan.

Visiting Relative—"And when was the baby born?"
Modern Father—"Between the second payment on the radio and the tenth on the car."

DAUGHTERS OF THE EMPIRE
It is probably no mere accident, and certainly not inappropriate, that members of the Independent Order of Daughters of the Empire should be gathering here from all over Alberta on this eve of the festival of St. George. Who will say that the imperial spirit is waning when such an order has its stronghold in Canada? And who will marvel that it is Canadian women whose loyalty to the cause of Empire has been tested so often with the fire of war and invasion, who are at this time, voluntarily pledged to continue and perpetuate that loyalty from one generation to another?

Let there be no mistake, however. The Daughters of the Empire are no mere flag wavers. It is by their works Canada knows them though, Empire-like, they do not parade them much for men to see. If there is a British cause to be supported the Daughters of the Empire are usually behind it—witness their efforts in the province of British immigration, their share in the recruitment of soldiers during the Great War, the personal sacrifices of many of them during the same dreadful, if inspiring, period. With-

TOURISTS pick the concrete roads because....

They help
take strain
and expense
out of motoring

Reduced tire-wear... fuel economy... safety... pleasant driving. No wonder motorists relax... and contentedly welcome each stretch of concrete highway.

From the taxpayer's angle, this modern paving is just as desirable. It ends costly upkeep; attracts profitable tourist traffic; facilitates communication between localities.

Each concrete mile is a permanent mile... so communities standardizing on this type of paving are able to devote each year's budget almost en bloc to needed new mileage. Advocate concrete paving... and wider highways... at every opportunity.

Here and There

(615)

The trans-Atlantic speed record between the ports of Liverpool and Saint John, was broken recently by the arrival at the latter port of the Canadian Pacific liner Duchess of York, after a crossing from Liverpool which took six days, 12 hours and 14 minutes. According to local shipping men this is the first time in the history of the port that a crossing has been made in under seven days.

Twelve thousand pounds of Quebec maple sugar and syrup were handled daily during the latter part of April by the Canadian Pacific Express Company to points overseas, the Prairie Provinces and Ottawa, constituting what is claimed to be a record movement of this dainty. Outside commercial uses, demand for this product arises on the part of individuals who make a practice of shipping it to relatives and friends in the Old Country and the west of Canada.

Close on six million dollars were spent on New Brunswick roads during 1929, being reconstruction of 221 miles of main trunk highways and 1138 miles of secondary roads. This is regarded as the most extensive programme of highway construction, improvement and maintenance ever undertaken in the Province.

Shipped in Hyde Park, London, England, recently, Hon. Barnaby Howard, little son of Lord Strathcona and descendant of the great Canadian who was one of the founders of the Canadian Pacific Railway, was photographed sitting his cousin, the small daughter of the Hon. Mrs. Arthur Howard. Both children are living links with the great past when one of the major events in the history of Canada was in the making.

Organized a few years ago by a group of farmers' wives with Mrs. Bertha Holmes as president, the Saskatchewan Poultry Pool handles about 75 per cent. of the entire egg production of the province. Last year the Pool turned over \$2,840,184 eggs, valued at \$540,000; \$23,743 pounds of dressed poultry valued at \$184,000, and 39,561 pounds of live poultry at \$6,000, or a total turnover of \$730,000 for the year.

After 15 years of seed planting, the experimental work of the Canadian Government Department of Agriculture has developed sixteen varieties of apple trees suited to the climatic conditions of the prairie provinces. Of these varieties two have been graded "very good," and four "good."

The first "Improved Sire Area" in Manitoba has been established in the municipality of Roland, according to announcement made by Albert Prefontaine, Minister of Agriculture of the province. Under this scheme all bulls, heifers and rams must be inspected and approved before owners are permitted to retain them for service in the Area.

Over \$22,000,000 have been invested in manufacturing enterprises in the province of Alberta and they are paying about \$14,000,000 yearly in salaries and wages to over 11,000 employees. A similar rapid development in industrialism in the sister provinces of Manitoba and Saskatchewan is to be noted. Combined, the three provinces have now a yearly output of manufactured goods in the neighborhood of \$225,000,000.

MILLET LOCAL NEWS

Mrs. K. Painter was an Edmonton visitor Friday.

Master Gordon Lee spent the Easter holidays at Coal Lake.

Mr. and Mrs. J. A. Rowley of Clive, spent Sunday with relatives here.

Mrs. W. H. Furlong shipped a purebred cow to Zelandin, Sask., on Tuesday.

Miss Lehmann is a visitor at the home of Mrs. H. Brinker for a few days.

Stanley Bear and Glen Motta spent Sunday at the home of Mr. and Mrs. C. S. Bear.

Mr. A. Just shipped a carload of fine saddle and pack horses to Jasper on Monday.

Mr. V. Rowley and Mr. R. Van Valkenburg were visitors to the city on Monday.

Mr. John Smith of Ferintosh, was a visitor at the home of Mr. Reuben Plant for the weekend.

Mr. Charles Lock returned home on Monday from the Edmonton hospital, where he underwent a serious operation.

A good many farmers report that the wheat is up and coming strong in the surrounding district, and all look for a good crop.

Mr. and Mrs. Roy Armstrong and daughter Lorraine, and Miss Ned Scott, spent Sunday with Mr. and Mrs. Peter Cavanagh.

Mr. Curran and family, who have been visiting at the home of Mrs. Kent, left for Jasper on Saturday, where they will take up residence.

Mr. and Mrs. L. Stahl and Mr. Blades motored to Red Deer, visiting at the home of Mrs. James Blades. They report the trail in splendid shape.

Sympathy is extended to Mr. Kent, who received a wire stating that his mother had passed away on Wednesday, April 30, at Lambeth, Ont., at the age of 87.

***The W.A. of St. John's church are holding an afternoon tea and sale of home cooking at the home of Mrs. Plant, on Saturday, May 10th, from 2 to 6 p.m. Everybody welcome.

Mother's Day, with special appropriate music, will be observed Sunday evening next, at 7:30 p.m. at the United Church. Parents generally, as well as boys and girls, are especially welcomed. An interesting and helpful service is expected.

FAMILY DOCTOR
LEARNED THIS ABOUT
CONSTIPATION

Dr. Caldwell loved people. His years of practice convinced him many were ruining their health by careless selection of laxatives. He determined to write a harmless prescription which would get at the cause of constipation, and correct it.

Today, the prescription he wrote in 1885 is the world's most popular laxative! He prescribed a mixture of herbs and other pure ingredients now known as Dr. Caldwell's Syrup Pepsin, in thousands of cases where bad breath, coated tongue, gas, headaches, biliousness and lack of appetite or energy showed the bowels of men, women and children were sluggish. It proved successful in even the most obstinate cases; old folks liked it for it never gripped; children liked its pleasant taste. All drugstores today have Dr. Caldwell's Syrup Pepsin in bottles.

Several members of the Millet L.O.O.F. 145 visited Wetaskiwin Lodge on Monday, the 5th, on the occasion of the official visit of the District Deputy Grand Master.

Messrs. S. Scott, A. Kerr, Porter Wright, H. Bunney, E. Olsen, A. Olsen, J. Barth and J. Watson visited the city on Monday to see the basketball game between the "Grads" and "Chicagos." They state they saw basketball at its best and enjoyed watching a real game. The Grads won by 40 to 13, bringing the score for the series up to 63-47.

The May meeting of the Ladies' Aid was held at Mrs. J. Dowler's, with a large attendance and many visitors present. In the absence of the president, Mrs. J. W. West, the chair was taken by Mrs. F. Facey, vice-president. Many business matters were discussed. A dainty lunch was served by the hostess. Particulars for June meeting later.

I.O.O.F. ANNIVERSARY SERVICE

The annual anniversary of the coming of Oddfellowship to America 111 years ago, was duly observed on Sunday last by Millet Lodge No. 145. Visitors as members of the Order were present from Edmonton and Wetaskiwin lodges, and joined with the local brethren in their march from the Community hall, where they assembled, to Phylon's hall. The march was in charge of Brother Thompson. A large congregation from Millet and surrounding country were in attendance at the service. Revs. A. Murphy and L. R. Macdonald were in charge of the service. The sermon for the occasion was preached by Rev. Macdonald from 1 Peter 2:17. In this verse was discussed humanity, brotherhood, reverence and citizenship. A choir from the United church of about twenty voices, led in the service of song; an anthem and duet were also given. Their contributions to the service were much appreciated. Rev. Murphy read the lesson from Luke, chapter 10, and led in prayer. The usual lunch for visiting lodge members, local members and their friends, was served afterwards in the Community hall.

HILLSIDE

Miss Barbara Marr, who was the student teacher in the school here last week, returned to Camrose Normal on Sunday.

A number attended the I.O.O.F. service in Millet on Sunday. Seeding is well advanced in the district, and with the number of nice showers during the past week the ground is in good condition.

The U.F.A. are calling a nomination convention in the U.F.A. hall, Wetaskiwin, on Tuesday, May 20th, for the purpose of electing a candidate for the forthcoming election on June 19th. It is expected that Hillside will be well represented.

Mrs. Chas. Dowell is holding a Scotch tea at her home Thursday of this week, Miss Millan of Edmonton will give a talk on poultry. All women interested are welcome.

Miss Beth Howes returned to her school at Gwynne last Saturday, after spending the Easter holidays at her home here.

The U.F.A. are holding their regular meeting on Saturday evening, in the school house.

HIS OLD STUFF

A certain salesman was proposing to his best girl.

"And, sweetheart," he finished, "I'll lay my whole fortune at your feet."

"It isn't a very big fortune," she reminded him.

"I know, dear," he replied, "but it'll look awfully big beside your little feet!"

NEURALGIA

WANTED—Spring work and breaking by the acre, for new Caterpillar outfit. L. R. Kubick, Millet. 3-tn

FOR SALE—Seed oats, 60c per bushel. Phone R1912. T. T. Jovan, Millet.

MILLET LOCAL NEWS

Mr. and Mrs. H. Von Arx motored to Edmonton on Sunday.

R. Taylor and L. Locke were visitors to Red Deer on Monday last.

Mr. and Mrs. H. Phillips and daughter motored to the city on Friday last.

Miss Irene Anderson is visiting at the home of Miss Blanche Van Valkenburg.

Mr. and Mrs. R. H. Simpson of Lendale, are spending a few days with Dr. and Mrs. Simpson.

Ken Lockhart has taken up his residence on the farm he purchased eight miles west of town.

Mr. Humphries' note was well attended and prices fetched for the cattle were exceptionally good.

The seeds for the School Fall Fair are now distributed, and the kiddies are all happy over their gardens.

Mrs. Barton E. Boyd of Wetaskiwin, is spending the weekend at the home of her daughter, Mrs. H. A. Lee.

The next W.I. meeting will be held at the home of Mr. and Mrs. R. Cohen. The roll call will be "Garden Hints."

Mr. Carr, the village decorator, has the slogan "Clean up, paint up," at heart, and is busy on the Anglican Church grounds.

Mrs. Jas. Carney arrived home on Tuesday afternoon, after attending the funeral of her mother, Mrs. H. A. Butchart, of Nelson, B.C.

The Bigstone grader is expected to be in town this week. It will work grading on several streets. This should put our streets in good shape.

Word has been received from Mr. and Mrs. J. West from Selby, Mont., who state that everyone in the party are enjoying the trip immensely, and that they expect to reach Montreal on May 14th. Any letters addressed to Mr. or Mrs. West, or any of the party at Vittorio, Veneto 35, Rome, Italy, should be mailed by May 31st.

When your
Children Cry
for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctor's word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most. Some night when constipation must be relieved—or colic pains—or other suffering. Never be without it; some mothers keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

WIESENFORD W.I.

The Wiesenford W.I. held their regular monthly meeting at the home of Mrs. Scott on May 1st, with seven members in attendance.

Several letters of thanks were read from people who had received a parcel of fruit during their illness.

The course in basket weaving is to be held at Mrs. Fulcher's on May 13, with Miss Knox as instructor.

Mrs. Newbold was elected Secretary-Treasurer to carry on the work during Mrs. Burdon's absence in England.

Mrs. Crouch was elected as a delegate to attend the W.I. convention which is to be held in Calgary.

The business finished, the meeting adjourned, after which a delicious lunch was served by the hostess.

NO RELATION

A hotel chambermaid was tipped half-a-crown not to give away the fact that a couple just arrived were newly married, following upon her having looked in their room and found them disposing of the confetti.

Going along the corridor a lady guest stopped her and queried—"Honourable couple in the end room aren't they, Mary?" Loyal to the half-crown, Mary replied—"No, Madam, you're quite wrong; they're just friends."—Efficiency Magazine.

NOT SO SPEEDY

"How bashful you are!" a pretty girl said to a young man who was late.

"Yes," said he, "I take after father there."

"Was your father bashful?"

"Was he? Why, mother says if father hadn't been so darn bashful I'd be four years older."

Headaches
Were So Bad*
They Kept Her Awake

Headaches seem to be habitual with some people; some are seldom, if ever, free from them, suffering continually from the dull throbbing, the intense pains; sometimes in one part, sometimes in another, and again over the whole head.

There is only one way to get relief from these persistent headaches, and that is by going direct to the seat of the trouble, for unless the cause is removed the headaches will still continue to exist, and the fact that

keeps the stomach, liver and bowels loaded up is proof enough to show that it will eliminate the cause of the headaches.

Mrs. A. M. Arsenault, New Aberdeen, N.B., writes:—"For a period I had been troubled with headaches and they were so bad they kept me awake at night. I was advised by a friend, after having used many different kinds of medicine, to try Burdock Blood Bitters. After taking three bottles I was completely relieved, and can recommend it to be a perfect medicine."

*Put up only by The T. M. L. Co., Ltd., Toronto, Ont.

AUDIEN THEATRE

"A SONG OF KENTUCKY"

An all talking and singing drama of the race track. Joe Wagstaff plays the role of a successful song writer who falls in love with Lois Moran who has a promising colt entered in the Kentucky Derby. One of the big moments of the picture is the actual running of the Kentucky Derby of 1929, which is one of the interesting backgrounds of the romance. Another is the symphony concert which climaxes the play. This is wonderful entertainment for the whole family.

TWO ALL TALKING COMEDIES

Monday, Tuesday, Wednesday, 8 p.m. May 12-13-14

GEORGE ARLISS in
"THE GREEN GODDESS"

The story tells of a group of English people stranded in the wilds of the Himalayas and completely at the mercy of a tribe of uncivilized idol worshippers and their cruel Rajah. George Arliss as the Rajah entertains them lavishly and with great charm, even while he prepares for them a torturous death. Arliss will hold you breathless as he portrays the suave Eastern potentate clothed with the veneer of civilization. Come early and follow this great story from the beginning. You will enjoy it as much as you did "Disraeli."

STOCK MARKET CRASH BRINGS NEW FRENZY

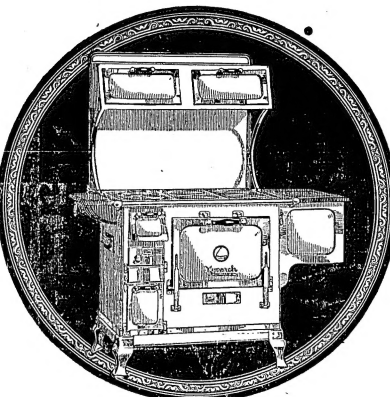

New York, May 3.—Hundreds of small margin accounts were wiped out today as millions of dollars were sheared from stock market values in the most frenzied trading since the crash last October.

It was the busiest day of the year. Brokers' offices were jammed. Floor of the exchange was tremendously active. Tickers were more than hour behind the market owing to the tremendous volume, trading at a rate of 10,000,000 shares for a full day.

MODERN DIET AND TRACTOR HURT FARM

Chicago, Ill., April 24.—Arthur M. Hyde, secretary of agriculture, suggested to the Chicago Commercial club last night that widespread dieting is in part responsible for the troubles of the farmer.

"If there were no diet experts influencing the people in what they should eat there would be no farm product surplus," said Secretary Hyde.

The secretary declared the economic tendencies of the country are against the farmer, the introduction of the automobile and the tractor on the farm has thrown into disuse all the horses that were formerly used, and this, in turn, threw into the market all the production of those acres that were formerly used to feed livestock. He said, continuing:

"The secret of the farmer's position lies in the increased output and the decreased market, each in itself causing the farmer to suffer, but in conjunction making the situation unbearable. In plain language, the farmer has lost his shirt but does not know where or how."

Secretary Hyde declared the remedy is the control of production.

BABY BORN WITH SET OF UPPER TEETH

The Pas, Man., May 3.—They are tough babies that are born in the friendly north. A few days ago the stork left an Indian infant in a private nursing home in The Pas with a full set of upper teeth, including the double molars. The youngster, just a few days old now, is busy cutting a lower set, and not complaining about it, according to the nurses.

His mother, just 17 years old, is the wife of one of the husky braves on the Cree reserve, near The Pas.

Just before the arrival of the baby, a relative of his was born on the reserve with six fingers on each hand.

REEVES—On May 4th, in the Wetaskiwin hospital, to Mr. and Mrs. L. Reeves, of Ponoka, a daughter.

CONSERVATIVE MEETING MAY 23

Notice is hereby given that a Conservative Convention of the Provincial Electoral Division of Wetaskiwin will be held on Friday the 23rd day of May, at the hour of 8 o'clock in the evening, at the Oddfellows' Hall, in the City of Wetaskiwin, for organization purposes and to elect a candidate for the forthcoming election if thought fit.

This Convention has been authorized to be called by the executive of the Association.

Dated at Wetaskiwin, Alberta, this 7th day of May, A.D. 1930.
C. H. RUSSELL, President.
R. W. MANLEY, Secretary.

TUXIS BOYS TO CAMP AT SYLVAN LAKE

The Alberta Boys' Work Board are already making preparations for their 1930 camping program. It is confidently expected that there will be in the neighborhood of fifteen district boys camps in as many localities throughout the province. These camps present an opportunity for purposeful character building activities for Trail Ranger and Tuxis Boys as well as those boys who come from Sunday school classes from the various denominations. Camp Tuxis, the provincial leadership training camp for older boys of 16 years of age or more, will be held from July 7-16 at Kasota Beach, Sylvan Lake. The leadership will be the best available.

CORRECTION

CAMROSE WAGES WAR ON CROWS

Camrose, May 5.—For several years Camrose has waged war on the crow and many thousands of this bird, now recognized as a pest, have been killed. This year the local campaign of extermination will open on May 5, and continue until May 13. The territory adjacent to the town has been divided into four districts in which teams of shooters each under a captain will conduct the crow hunt. The Camrose fish and game protective association is conducting the campaign.

Prizes will be awarded to the three teams shooting the largest number of these birds. Their nests will also be destroyed whenever possible. The same association will also sponsor a competition among the rural school children of the district for the taking of crow eggs and magpie eggs. This contest will continue to July 1. The eggs have to be blown free of their contents and prizes will be offered to the children turning in the largest number of both kinds. The efforts of past years toward the extermination of these destructive birds are beginning to show results as there is a noticeable reduction in the number of both crows and magpies in the district compared with previous years.
